

Calgary Release of the 2014 Clean Technology Industry Report at the Economic Club of Canada

CALGARY – The Economic Club of Canada in partnership with Analytica Advisors is proud to host the release of the 2014 Canadian Clean Technology Industry Report. Clean technology awareness is increasing and growing stronger each year and we are pleased to be the vehicle to relay the findings of the 2014 report. The report will speak to the industry's progress to date, its future potential and how this industry is a vital component of Canada's economic prosperity.

WHO:

- The Honourable Michelle Rempel, Minister of State, Western Economic Diversification
- Jim Schubert, P.Eng. Director, Business Planning & Central Operations Waste Management Services, City of Edmonton
- John F. Elliot, President and Chief Operating Officer Pure Technologies Ltd.
- Lawrence Novachis, P.Eng. MBA Chief Executive Officer, FilterBoxx Water & Environmental Corporation
